

How to Add Telemarketer in JIO DLT for PE-TM Binding Chain?

The Telecom Regulatory Authority of India (TRAI) has revised its guidelines to improve accountability and transparency in the telemarketing sector.

Now, the Principal Entity (PE) must establish a formal connection with telemarketers through the Distributed Ledger Technology (DLT) portal.

This connection is crucial for creating a binding relationship within the PE-TM (Principal Entity – Telemarketer) framework.

In this guide, we will explain how to add a telemarketer in [JIO DLT](#) for the PE-TM binding chain.

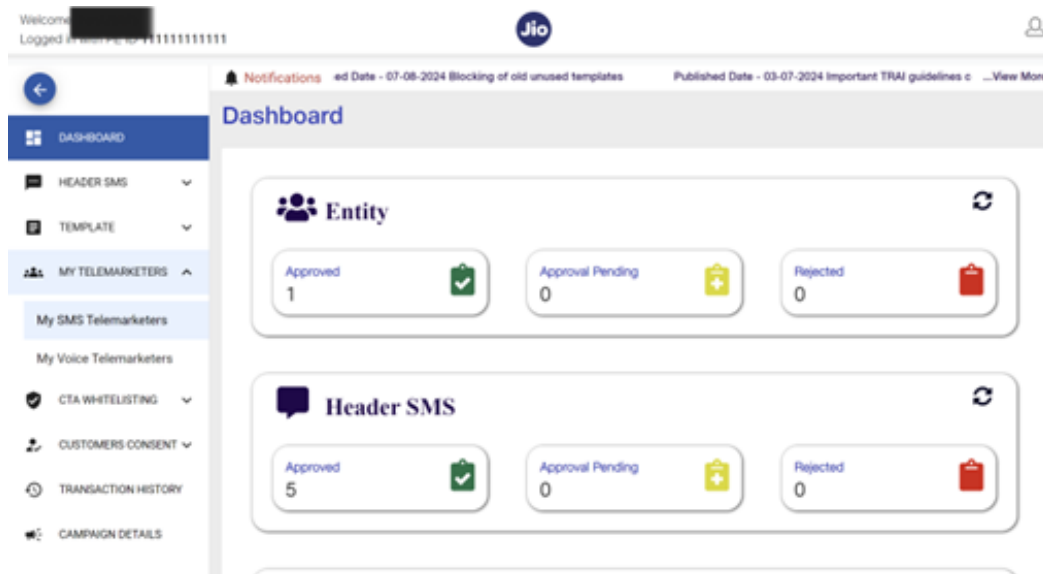

How to Add Telemarketer in JIO DLT for PE-TM Binding Chain?

If you are registered at the **JIO DLT portal** you may need to add a telemarketer in JIO DLT for PE-TM Binding Chain in the following manner:

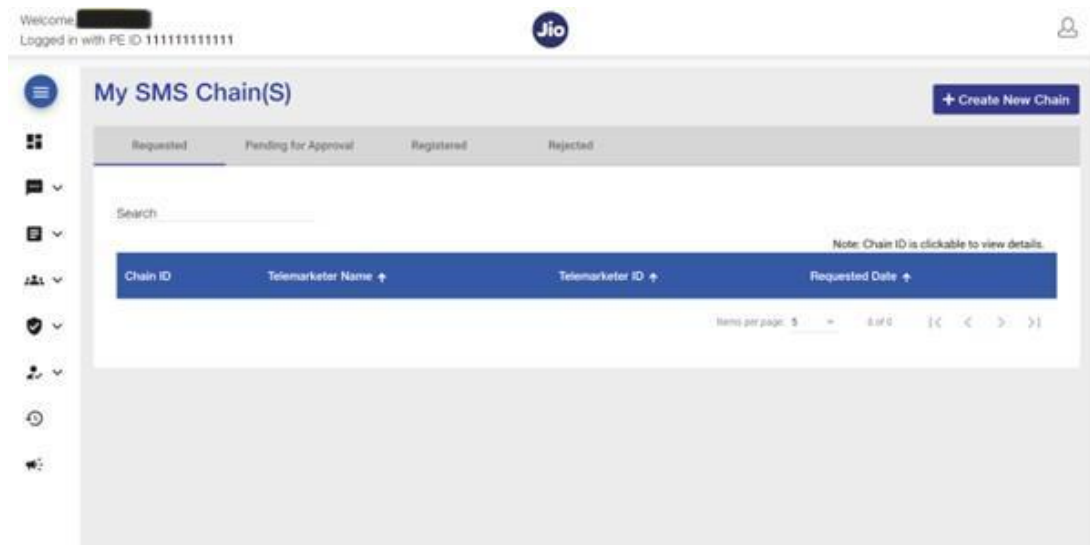

1. Login to [“JIO DLT”](#)

2. Click on **“My Telemarketer”** and select **“My SMS Telemarketer”**

3. Click on **“New Chain”**

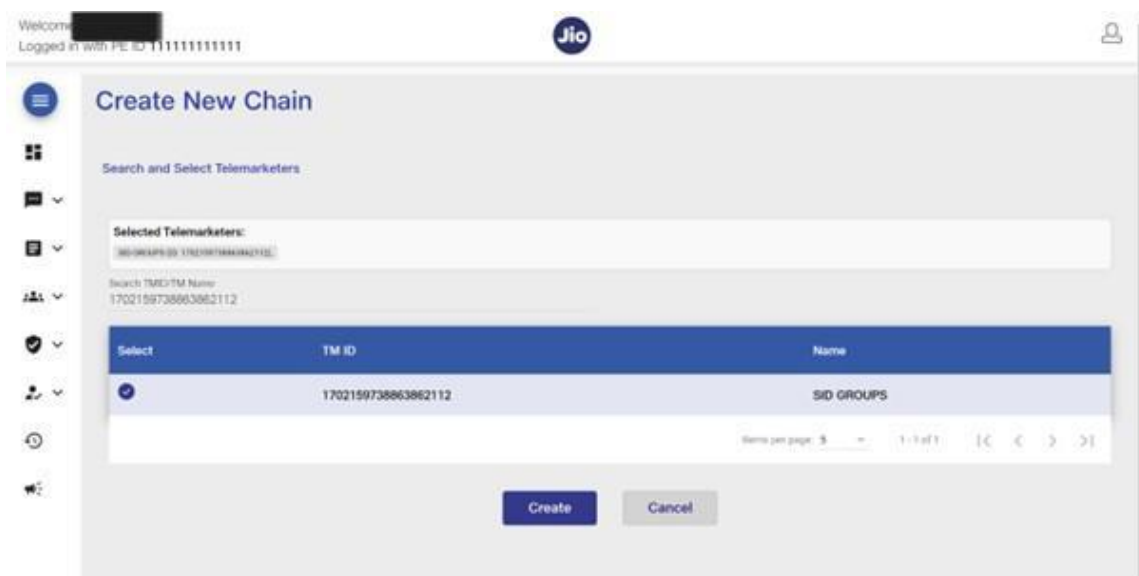

4. Search the telemarketer by entering the Telemarketer ID:1002591355509194638 as Log2X Technologies Pvt Ltd and submit the chain request.

5. Select the “telemarketer ID”

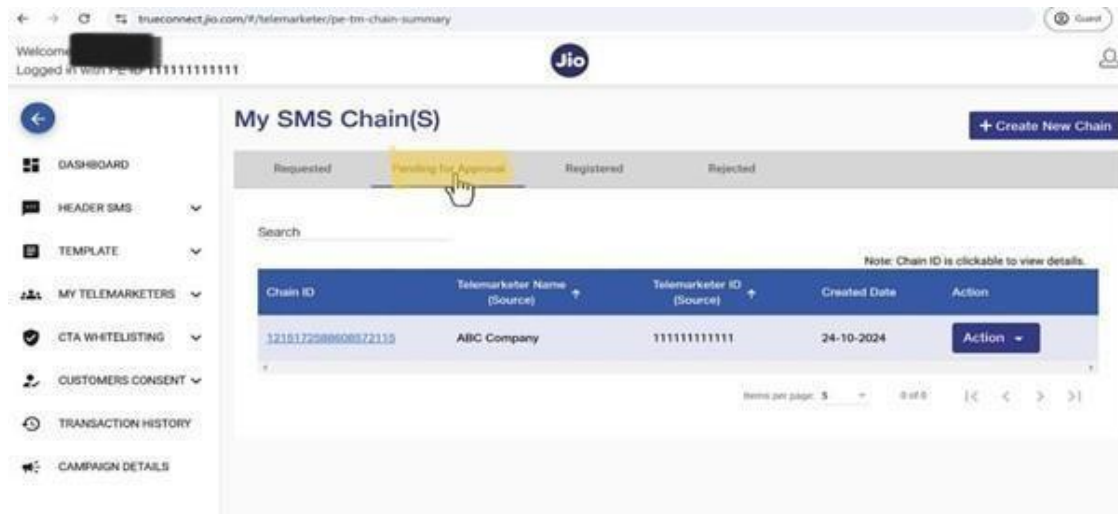

6. Click “Create”

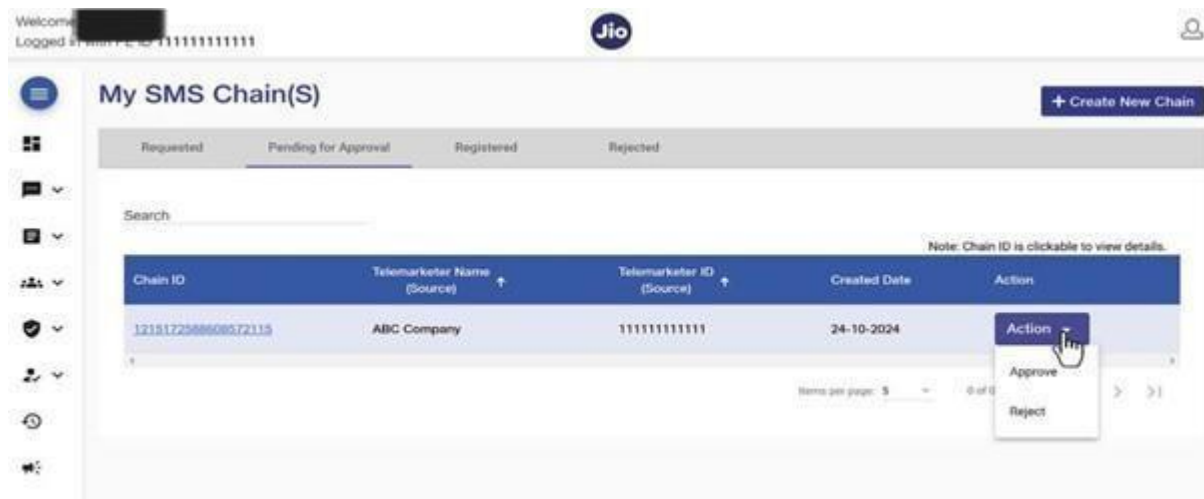

The status of the chain will display as “pending”.

7. Take the screenshot of this page and submit at 2Factor support mail id support@2factor.in -

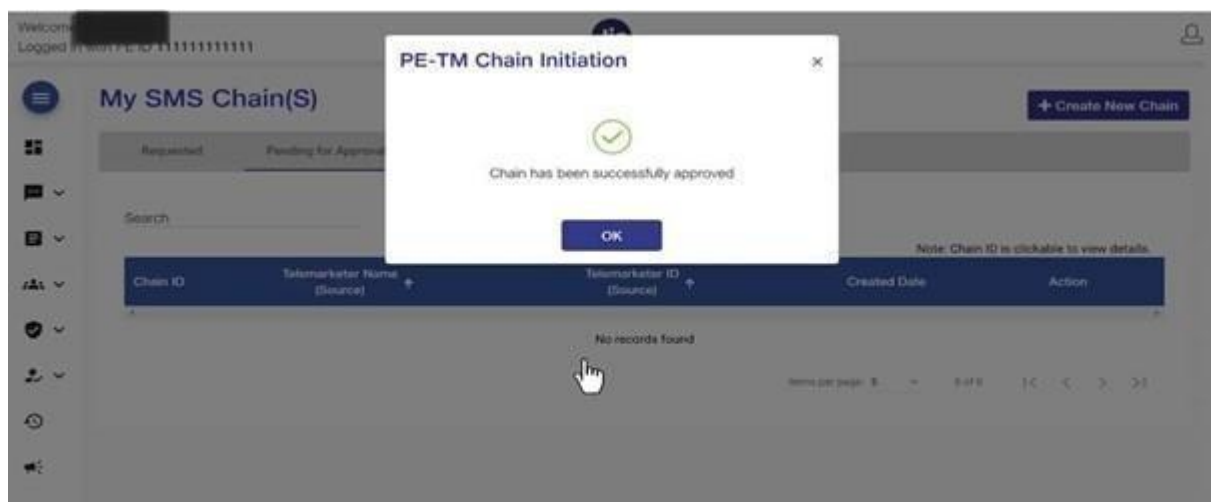

9. Click on the “Action” button and select “Approve”

10. Click “Confirm” on the confirmation pop up.

11. Your PE-TM Binding Chain process is successfully completed.

12. The Chain status becomes "Active"
