USER MANUAL

PE-TM Binding

Request Initiated by PE.

- 1 On the Entity panel in the side menu bar, there will be a “PE-TM Chain” option.
- 2 The option of initiating a new request will be there.
- 3 Search the telemarketer by entering the Telemarketer ID:1002591355509194638 as Log2X Technologies Pvt Ltd and submit the chain request.
Upload the document if required.

4

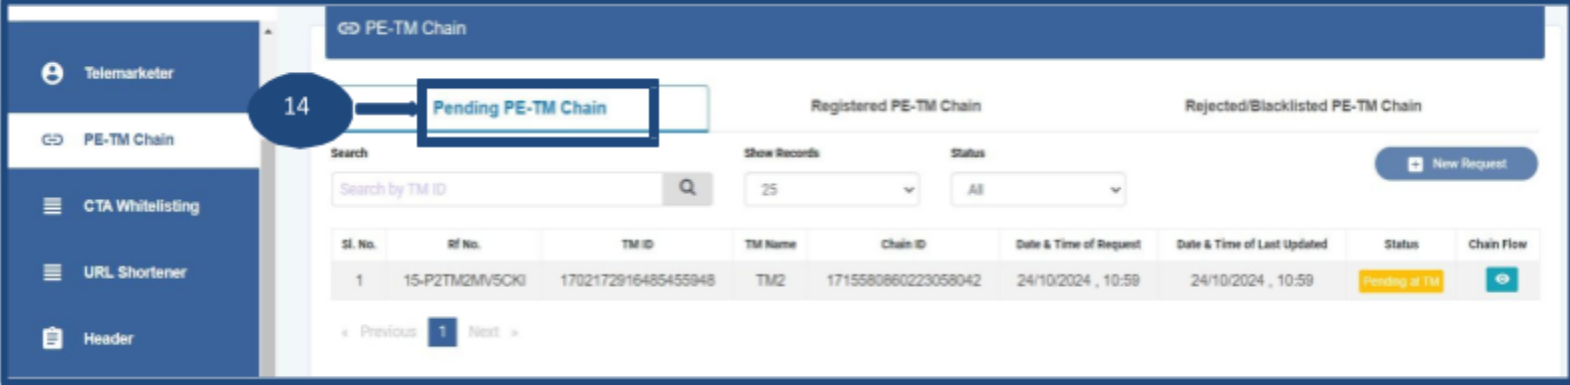

Click on “Submit Button”.

The request will be submitted to TM for acceptance & defining its initially it will be in the pending state take the screenshot of this page and submit at 2Factor support mail id support@2factor.in - once the 2factor approved from their end than click on the view status and approve from your end by clicking on approve option.

Status View at Entity Panel

14 Submitted Request will be visible under the Pending PE-TM Chain section with the status "Pending at TM."

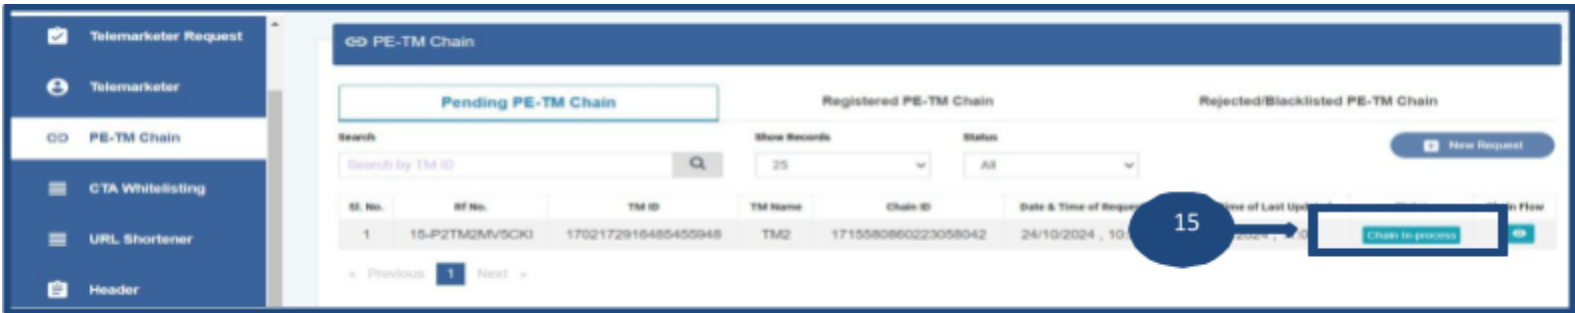

15 If the role of the requested TM is TM-A. Post approval the status will change to "chain in-process" Till the TM-D gets declared in the chain. After TM-D declared the status changes to "pending final approval" at the Entity's end.

The screenshot shows the 'PE-TM Chain' interface. On the left is a sidebar with navigation items: Telemarketer, PE-TM Chain, CTA Whitelisting, URL Shortener, and Header. The main area has three tabs: 'Pending PE-TM Chain' (highlighted with callout 14), 'Registered PE-TM Chain', and 'Rejected/Blacklisted PE-TM Chain'. Below the tabs is a search bar 'Search by TM ID' and filters for 'Show Records' (25) and 'Status' (All). A table displays one record with the following data:

Sl. No.	RF No.	TM ID	TM Name	Chain ID	Date & Time of Request	Date & Time of Last Updated	Status	Chain Flow
1	15-P2TM2MV5CKJ	1702172916485455948	TM2	1715580860223058042	24/10/2024 , 10:59	24/10/2024 , 10:59	Pending at TM	

Navigation links 'Previous' and 'Next' are at the bottom of the table.

This screenshot shows the same interface as the previous one, but the status of the record in the table has changed to 'Chain in-process'. A callout box labeled 15 points to this status. The 'Pending PE-TM Chain' tab remains selected.

Sl. No.	RF No.	TM ID	TM Name	Chain ID	Date & Time of Request	Date & Time of Last Updated	Status	Chain Flow
1	15-P2TM2MV5CKJ	1702172916485455948	TM2	1715580860223058042	24/10/2024 , 10:59	24/10/2024 , 10:59	Chain in-process	

Note: In the chain, two TM-A and only one TM-D are allowed.

Request approve by TM

16 If the TM selects its role as TM delivery (TM-D). The chain will be completed here.

17 The status will change to “Pending at Entity” in the PE TM Chain Section.

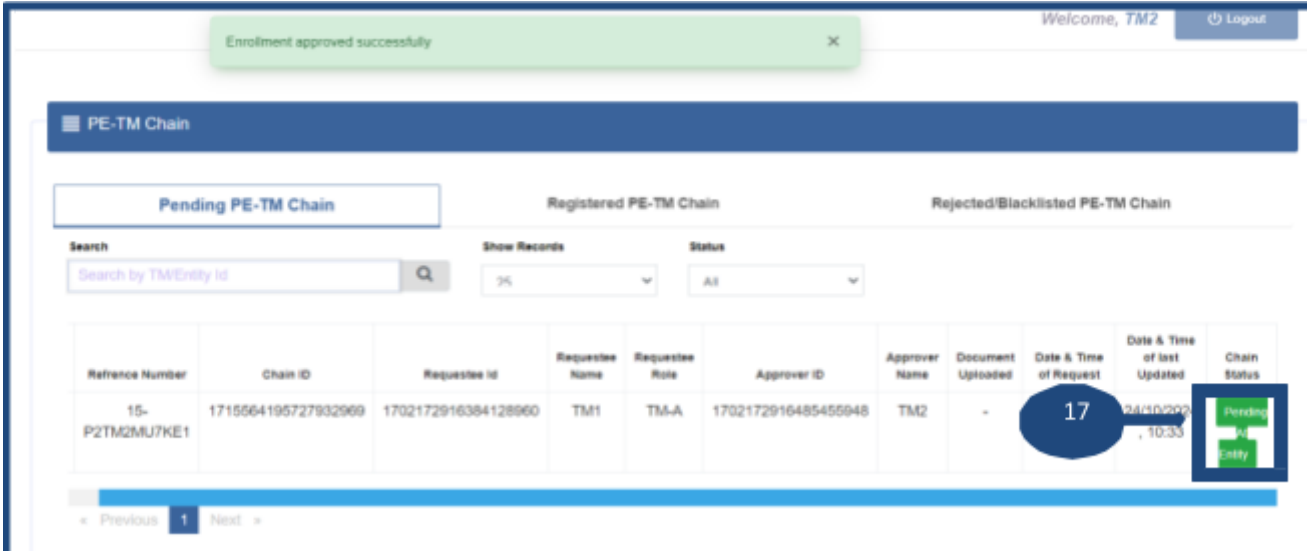

The Request will go to the entity for final Approval of the chain.

Chain flow on Entity Panel

- 22 To view the chain's final flow click on the view button under the registered PE-TM chain section.

The screenshot displays a web interface for a 'PE-TM Chain'. At the top, there is a header bar with the title 'PE-TM Chain' on the left and 'CHAIN ID: 1715564195727932969' on the right. Below the header, a section titled 'View workflow details: *' contains a table with two rows of data. The table has eight columns: 'S No.', 'TM ID', 'TM Name', 'Role', 'Date & Time of Request', 'Date & Time of Last Updated', 'Status', and 'Doc Uploaded'. The first row shows a request from TM1 (Role TM-A) on 24/10/2024 at 10:31, which was approved at 10:52. The second row shows a request from TM2 (Role TM-D) on 24/10/2024 at 10:32, also approved at 10:52. A circular callout with the number '22' points to the 'View workflow details: *' section.

S No.	TM ID	TM Name	Role	Date & Time of Request	Date & Time of Last Updated	Status	Doc Uploaded
1	1702172916384128960	TM1	TM-A	24/10/2024 , 10:31	24/10/2024 , 10:52	Approved	-
2	1702172916485455948	TM2	TM-D	24/10/2024 , 10:32	24/10/2024 , 10:52	Approved	-

Note: If no action is taken within 72Hrs the chain request will automatically get rejected.

Thank You !
